

Itab Production and Office Premises

The construction work completed in less than six months, enabling production and business to get off to a quick start. Apart from the speed of construction, the customer also valued quality and safety.

The production and office premises for Itab include a single-storey 19,000 m² production hall and a three-storey office building.

Ruukki's delivery included production and installation of the steel frame and roof, as well as project planning.
