

Ruukki acoustic cladding 100 mm

All Ruukki design and low profiles with 30% continuous perforation and suitable background insulation layer of 100 mm removes flutter echoes between vertical parallel surfaces and improves absorption properties of both wall and ceiling surfaces.

This solution is optionally available with following sustainable features:

- Steel facings made of recycled steel (SSAB Zero) for significantly lower CO₂ emissions and high circularity (Ruukki LowCarbon)

[SEND CONTACT REQUEST](#)

Structure

- 1. Ruukki design profile or low profile with 30 % perforation
- 2. Acoustic fabric
- 3. Hat profile 0,6 mm; h = 100 mm, w = 70 mm
- 4. Low density rock wool ~ 25 kg/m³, not in Ruukki delivery
- 5. Base structure: Ruukki sandwich panel (SPA150E) / all kind of base structure

Sound absorption values

Practical sound absorption coefficient α_p and sound absorption class

Class A, α_p 0,90

f(Hz)	α_p
125	0,20
250	0,60
500	0,95
1000	0,90

2000	0,95
4000	0,95

Sound insulation values

Airborne sound insulation value improvement

(Values below are measured with Ruukki sandwich panel (SPA150E) base structure, similar improvement with all sandwich panels.)

f(Hz)	R(dB) 1/3	R(dB) 1/1	F	B
50	21,3			
63	31,4	18,6		
80	14,8			
100	25,8			
125	24,4	24,5		
160	23,6			
200	24,5			
250	28,1	27,3		
315	33,1			
400	37,0			
500	39,8	38,4		
630	39,0			
800	37,2			
1000	34,0	36,7		
1250	43,0			
1600	51,4			
2000	50,7	52,1		
2500	55,8			

3150	59,1		x	
4000	62,5	60,7	x	
5000	61,1			

Note. Signs F and B indicate that the declared result is an underestimate in this frequency band. The true value is larger.

$R_w(C;C_{tr}) = 39 \text{ } (-1;-5) \text{ dB}$

Design tools

Ruukki Acoustic Estimator

Try our estimator for your next project. With our estimation tool you can calculate which product configuration provides you with optimal results.

Download BIM objects to your desktop

ProdLib brings Ruukki products as BIM models directly to your desktop in 3D form for design programs AutoCAD, Autodesk Revit, Archicad and Tekla Structures. Product libraries compile all necessary design models and detailed drawings in one place. Library updates are automatically notified, so as a user you can be sure that your product information is constantly up to date. ProdLib can also be used as a standalone desktop application.
