

Ruukki® Classic Pro C

Ruukki® Classic Pro is the latest addition to the Ruukki® Classic roof family – combining timeless form with a modern approach to detail. With its 510 mm profile width, Ruukki® Classic Pro meets market standards while delivering what makes Ruukki unique: Scandinavian quality, precision engineering, and aesthetics that give every building a distinctive character.

Clean lines, durable materials, and attention to detail make Ruukki® Classic Pro the choice for those who expect more than just a roof – they want the confidence that their decision will remain valid for years to come.

Ruukki Classic Pro is available in Ruukki 50, Ruukki 40 and Ruukki 30 Quality Classes.
