Sandwich panel nSPB WE

Sandwich panel **nSPB WE** is available in thicknesses 80 - 230 mm.

It is a perfect solution for most buildings and structures, combining **high quality** with **very good technical properties**.

The filling consisting of non-combustible and environmentally friendly soft mineral wool with **low thermal conductivity coefficient** ensures **very good thermal insulation** of this panel. Properly milled core increases **air-tightness** and provides **high sound insulation**.

Optionally, on request, **nSPB WE** sandwich panel, in thicknesses 100 - 230 mm, can be delivered as FM Approved product with a certificate granted by the world-biggest insurance company FM Global. The global certificate received based on 4880 and 4881 standards confirms that a building's envelope made of these sandwich panels from Ruukki ensures the highest safety level in case of fire or hurricane.

For all needed information about FM Approved panels, please contact Ruukki Sales.

Application:

- External walls
- Internal walls

Properties

Model name	Sandwich panel nSPB WE
Standard module width	1100 mm
Optional module width (B)	(B) 1000 mm; (A) 1200 mm (D = 100, 120, 150, 170, 180, 200 mm)
Minimum length	2000 mm
Maximum Length	12000 mm
External facing thickness	0,5 mm * 0,6 mm
Internal facing thickness	0.5 mm
External Fire Exposure	NRO

*External facing thickness 0,5 mm is a standard option for the following colors: RAL 9002 (RR1G6), 9010 (RR1G5) (all modular widths) and 7035 (RR2B1) (modular widths: 1100 mm and 1000 mm)

Internal	Polyester	35	C3	-	RAL9002 (RR1G6), RAL9010 (RR1G5)

**For optional modular width A = 1200 mm only a polyester coating in the following colors RAL 9002 (RR1G6), RAL 9010 (RR1G5), RAL 7035 (RR2B1), RAL 7016 (RR288), RAL9006 (RR946), RAL 9007 is available.*

UV resistance describes how well the coating is able to keep its original colour and gloss levels in accordance with EN10169. The higher the class, the better the resistance.

Corrosivity categories describe the outdoor climate conditions in accordance with EN12944. The higher the category, the more corrosive environment.

Design tools

Traypan® software for designing sandwich panels

With TrayPan®, you can design metal faced sandwich panels made by Ruukki. A panel structure can be designed as a single- or multi-span construction. You can easily give, with a few parameters, both suction and pressure loads caused by the wind. The application also calculates the necessary fasteners.

Download BIM objects to your desktop

ProdLib brings Ruukki products as BIM models directly to your desktop in 3D form for design programs AutoCAD, Autodesk Revit, Archicad and Tekla Structures. Product libraries compile all necessary design models and detailed drawings in one place. Library updates are automatically notified, so as a user you can be sure that your product information is constantly up to date. ProdLib can also be used as a standalone desktop application.
