

Sandwich panel SPA E Life Energy

Sandwich panel **SPA E Life Energy** is available in thicknesses 200 - 230 mm.

With precise and Ruukki specific manufacturing tolerances, and factory-fitted seals on the panel joints, the Ruukki® Energy panel structure with its seams forms a very airtight solution. Together with Ruukki Airtightness package it's possible to achieve excellent airtightness to the entire building. This can decrease energy costs and CO₂ emissions up to 30%. [Read more on airtightness package.](#)

With its exceptionally high recycled content, this sustainable sandwich panel minimises the use of raw materials and energy as well as reduces the carbon emissions during the construction phase. Our life panel can **be re-used and fully recycled**. It is an ideal solution for facades with high requirements for sustainability.

Using Ruukki's solutions you can receive more credits in LEED and BREEAM certification systems. This panel type is **intruder resistant** in accordance with SSF 1047, class 2 (see Certificates & approvals).

The filling consisting of non-combustible and environmentally friendly soft mineral wool with low thermal conductivity coefficient ensures **very good thermal insulation** of this panel. Properly milled core increases air-tightness and provides **high sound insulation**.

Application:

- External walls (standard fix)

This product is optionally available with following sustainable features:

- Steel facings made of recycled steel (SSAB Zero) for significantly lower CO₂ emissions and high circularity (Ruukki LowCarbon)
- Insulation made of recycled glass for high circularity
- Air tightness package for lower CO₂ emissions during building use

Properties

Model name	Sandwich panel SPA E Life Energy
Standard module width	1200 mm
Minimum length	2000 mm
Maximum Length	13500 mm
External facing thickness	0.6 mm
Internal facing thickness	0.5 mm
Air Tightness	q50=0,01 m3/hm2 (pressure and suction)

Thickness D (mm)	200	230
Weight (kg/m ²)	21.2	23.2
U-value (W/m ² K)	0.19	0.16
Sound insulation Rw (dB)	29	29
Reaction to fire	A2-s1, d0	A2-s1, d0
GWP-total, A1-A3 (kg CO ₂ ◇/m ²)	37,9	39,9
GWP-total, A1-A3 (kg CO ₂ e/m ²) for Ruukki® LowCarbon	23,2	25,4

Wall fire resistance values & max span horizontal / vertical orientation (m):	200	230
EI 30	7.5 / 7.5	7.5 / 7.5
EI 30 (stainless steel)	7.5 / -	7.5 / -
EI 60	7.5 / 7.5	7.5 / 7.5
EI 60 (stainless steel)	7.5 / -	7.5 / -

Detailed information regarding the application of fire resistance ratings can be obtained from Ruukki Sales.

All properties are declared in accordance with EN 14509 and related standards.

Coatings and colors

Materials

Facing	Coating	Gloss level (GU)	Corrosivity category	UV resistance	Colours
External	GreenCoat Pural BT Satin	20	C4	Ruv4-5	RR20, RR21, RR22, RR23, RR29, RR33, RR35
External	GreenCoat Pural BT Metallic	40	C4	Ruv4	RR40, RR41, RR45
External	Polyester	35	C3	Ruv2-3	RR20, RR21, RR23, RR946
Internal	Polyester	35	C3	-	RR20
Internal	PVC laminate *		C4	-	White
Internal	Stainless steel		C4	-	-

**) optional material*

UV resistance describes how well the coating is able to keep its original colour and gloss levels in accordance with EN10169. The higher the class, the better the resistance.

Corrosivity categories describe the outdoor climate conditions in accordance with EN12944. The higher the category, the more corrosive environment.

RR20 Winter White

RR21 Pebble Grey

RR22 Stone Grey

RR23 Mountain Grey

RR29 Cottage Red

RR33 Nordic Night Black

RR35 Lake Blue

RR40 Metallic Silver

RR41 Metallic Dark Silver

RR45 Metallic Titanium

RR946 Metallic Silver

Linear 50

Design tools

Traypan® software for designing sandwich panels

With TrayPan®, you can design metal faced sandwich panels made by Ruukki. A panel structure can be designed as a single- or multi-span construction. You can easily give, with a few parameters, both suction and pressure loads caused by the wind. The application also calculates the necessary fasteners.

Download BIM objects to your desktop

ProdLib brings Ruukki products as BIM models directly to your desktop in 3D form for design programs AutoCAD, Autodesk Revit, Archicad and Tekla Structures. Product libraries compile all necessary design models and detailed drawings in one place. Library updates are automatically notified, so as a user you can be sure that your product information is constantly up to date. ProdLib can also be used as a standalone desktop application.
