

Film Museum Tallinn

As only natural materials were allowed in architectural competition, Cor-Ten was chosen to distinguish and not to compete with surrounding buildings. Around 2500 m² minimal standing seam lookalike façade has very modern look.

This is the only museum in Baltic and Scandinavian region that is specially designed and built for film museum. It has 600 m² of exhibition hall, small film studio and cinema theater with some educational rooms.

As only natural materials were allowed in architectural competition, Cor-Ten was chosen to distinguish and not to compete with surrounding buildings. Around 2500 m² minimal standing seam lookalike façade has very modern look.

Special Cor-Ten Lamella solution and its installation details were solved in cooperation with Ruukki and BOA OÜ architects.
