

Helleren Swimming Complex

Helleren will be a landmark building for Bergen. It ranks among the city's largest construction projects ever.

Partners

- > Investors: City of Bergen and Hordaland fylkeskommune
- > Main contractor: Veidekke Entreprenør AS
- > Structural designer: EKJ Rådgivende Ingeniører AS
- > Architect: KHR arkitekter A/S

Helleren comprises a new national swimming complex, with the facilities to hold major national and international swimming competitions. In addition, the building includes a new upper secondary school for 900 students.

Ruukki utilised 3D and SAP for production management, installation planning and scheduling.

Helleren is be a landmark building for Bergen. It ranks among city's largest construction projects ever.

"In Norway, Ruukki is known as an expert, reliable company with proven excellence in the construction of challenging projects. Our previous experience includes successful cooperation in the Oslo Opera House project." - Project Manager Øyvind Dietrichson, Veidekke Entreprenør AS
