- > Distributor: Lambda Systeme Kft.

One of the leaders in printing business in Hungary made a huge extension on their existing factory with this project.

Ruukki delivered the Cor-Ten parts for the external look which symbolises a printing machine.

The rusted brown Cor-Ten sheets fit well with the green of trees and grass, and also with the glass and the silver steel surface.

Wall structure: concrete wall, vertical EuroFox substructure with mineral wool insulation and horizontal Cor-Ten Lamella 30 cladding.
