- > Architects: SIA NAMS
- > Contractor: SIA MONUM

The facade solutions are very modern and the texture and colour of the PRIMO cassette surface gives the building a unique design. This year, in category "*Public buildings (cultural, educational, religious buildings; healthcare and medical institutions; sports buildings)*" Ogres State Gymnasium project was The Latvian Architecture Award (LAA) award semi-finalist. The Latvian Architecture Award (LAA) is a prestigious award that not only accentuates outstanding achievements in Latvian architecture and cares about the development of the industry, but also promotes public awareness of architecture.
