In this building we have used **GreenCoat®** - A Nordic quality sustainable steel from SSAB.

[Read more about about GreenCoat® here](#)

The industrial park is located between the towns of Dubnica nad Váhom and Nová Dubnica. It covers the area of almost 200,000 m² and it is the first logistics park built in quality class A to reduce operating costs. You can get to strategic plants in Bratislava, Trnava, Nitra, Žilina and Ostrava from here under 80 minutes. Ruukki supplied the complete Ruukki Forma facade system for the R.D.C 1 office building, which is located in the industrial park. Ruukki Forma contributes to energy efficiency and to reducing the building's energy costs.
