

Rumbula sports center

Ruukki Energy sandwich panels were used in this project. External walls made of such panels ensure good airtightness and save energy needed for air cooling. A new energy-efficient sports center in Riga, Latvia, has a total area of 6200 m².

Partners

- Architect - VENTS
GRIETĒNS, Projektu birojs
Grietēns un Kagainis, SIA
- Construction company –
BŪVKORE, SIA

In this building we have used **GreenCoat®** - A Nordic quality sustainable steel from SSAB.
