Jiříkov is a picturesque small town in the north of Bohemia in the Lusatian Highlands near the border with Germany. This region is also known as the Czech Switzerland. In recent years, the demand for various services has rose in this area and thus the need for the shopping mall. Approximately 100 m from the border, in newly built retail center will open their business not only a bistro, textile store and grocery but also for example a nail and beauty studio.

Ruukki supplied energy efficient envelope, a complete wall system Ruukki Forma with Liberta Elegant 500 facade cassettes and SP2E160 E-PIR Energy sandwich panels. The city thus acquired an elegant place for shopping, refreshment and relaxation not only for local residents, but also for visitors from the surrounding area.
