The facade renovation utilized Ruukki's [Liberta Original 102 Grande](#) facade cassettes, a distinctive steel cladding solution enabling large cassette sizes.

"The selected product matched the designer's vision for the building's final appearance. It was highly adaptable and easy to install," explains Janne Vanhanen, Project Manager at Apollo Talonrakentajat Oy.

"Our collaboration with Ruukki was seamless. Scheduling and deliveries went exactly as planned, and the project was completed on time."
