

Tuglase Business Center

This business center was renovated in summer 2016. Architect combined different color Liberta Elegant 500 Grande rainscreen panels and more vivid look was given by using Liberta panels with different depth.

This business center was renovated in summer 2016. It used to be Ruukki's sandwich panel building built more than 15 years ago. Times have changed and this building needed a new attractive look. Ruukki's cladding portfolio offers many options to choose from. Architect combined different color Liberta Elegant 500 Grande rainscreen panels and more vivid look was given by using Liberta panels with different depth.
