

Skanssi Shopping Centre

The gross area of the centre's first phase comprises approximately 134,000 m²

Partneriai

- > Main contractor: Hartela Oy
- > Architect: HELIN & Co Architects

The Skanssi shopping centre in Turku was completed in April 2009. The gross area of the centre's first phase comprises approximately 134,000 m², the surface area of leasable retail spaces approximately 38,000 m², and floor area of approximately 97,000 m². There are approximately 100 stores and space for 2,400 cars.

The main contractor Hartela Oy strived to achieve a high-quality design and a first-rate end result, which is why the country's foremost resources were chosen as cooperation partners.

Architect: HELIN & Co Architects

Ruukki, always a reliable partner, delivered the project's steel frame. The delivery comprised both the structural design and installation.
