Good reputation and high quality products

Product and service quality, as well as price/quality ratio were the decisive factors for Cargotec Poland Sp. z o.o. to choose Ruukki as a partner for the construction of the company's new production and storage facilities.

Ruukki delivered a steel frame for five buildings:

Production and assembly hall, office building and warehouses

Total weight of steel structures for Cargotec's buildings was 1,850 t

Profiled sheet delivery amounted to 32,000 m²

Not only building components

Cargotec and Ruukki have a long tradition of cooperation. Ruukki Engineering delivered a significant amount of components and systems for Cargotec's handling equipment.
