

Turku Logistics Centre

Ruukki provided microsurface sandwich panels for the project. Sandwich panels create a sharp-looking façade, and they are easy to install. Ruukki also provided the frame structures and load-bearing steel roof sheets for the canopies.

Partneriai

> Posten Logistik SCM Oy

Posten Logistik SCM Oy, a company owned by the Swedish postal service, decided to centralise all its Turku-based operations. The company commissioned the building of a 30,000-square metre logistics centre in the Port of Turku area.

Ruukki provided microsurface sandwich panels for the project. Sandwich panels create a sharp-looking façade, and they are easy to install. Ruukki also provided the frame structures and load-bearing steel roof sheets for the canopies.
