

AW Terminal Hall

The Kokkola all-weather harbour terminal constitutes the largest in the world.

The Kokkola all-weather harbour terminal constitutes the largest in the world. It became the first Nordic and the fifth European project of its kind. The 40-metre tall terminal hall, the size of a football field, is designed for the loading and unloading of ships. The basin measures 25 metres in width, 122 metres in length, and 10 metres in depth. The draft of the basin is 8 metres.
