

Norrköping multipurpose arena

Norrköping's new multi-purpose arena houses a basketball court and premises for track and field.

Norrköping's new multi-purpose arena houses a basketball court and premises for track and field.

The construction of the project cost approximately 80 million SEK. The arena meets international standards, providing track and field athletes with a long-awaited indoor arena.

Ruukki supplied the multi-purpose arena with structures, such as roof and wall elements, worth 4.2 million SEK upon ordering.

The arena was completed in early 2009.
