- Profile installations: Normek Oy

- Oy Hartman Ab's agency in Espoo in the capital area is almost solely constructed using Ruukki's products.
- Built in 2012 this commercial building has a new Ruukki® Smart Roof that is able to follow in real time how snow builds up on the roof. It sends an alert by SMS or email when snow needs to be removed.
- Ruukki's products improved the safety and energy and cost-efficiency of the building.
